Completed the Cypress Automation Testing course on Udemy, gaining hands-on experience in end-to-end testing, writing automated tests, and ensuring frontend reliability and code quality.

PROJECTS

Wild Oasis
React Wild Oasis - Hotel Booking System

- Built a booking platform for *Wild Oasis*, a forest hotel with 8 cabins, allowing guests to choose cabin options with or without breakfast, select dates, and pay at the front desk. Integrated Google login for easy access.
- Developed an admin dashboard for staff to manage upcoming and completed bookings, add breakfast options, handle check-ins, and process payments.
