Work permit in the EU/UK |
open to relocate

I'm eager to apply my design background and new full stack development skills to innovative tech projects. As a Full Stack Developer, I mastered HTML, CSS, JavaScript, React, Express, Node, and Mongoose through Ironhack's intensive bootcamp. With a Bachelor's in Graphic Design and team leadership experience in London and Barcelona, I bring a creative perspective and effective collaboration to development.

EDUCATION

Fullstack Developer - Grup Cief - Barcelona

- Final Project: App for Italian citizens to book appointments for passport and ID renewals.

Fullstack Developer - Ironhack - Barcelona

Bootcamp with more than 450 hours, with more than 3 projects

- My first project was a memory game based on JavaScript ([Github](#))
- Second project was a web page for a portfolio that was with HTML, CSS and JavaScript ([Github](#)) - ([Deploy](#))
- Third one was a Full Stack web page for a family as a To Do list using React and JavaScript ([Github](#))

Graphic Design - Universidade Metodista - Piracicaba (BR)

- Typhographic
- Marketing
- Design
- Semiotics
